Weather Key Points

Regional Operations Center

Western Region

Monday, October 24

- Breezy north to northeast winds will persist over many southern California mountain locations through early to mid afternoon Monday, bringing locally elevated fire weather conditions
- Otherwise, no significant or widespread weather impacts are expected through at least late week, with just some light rain and very high elevation snow across far northern California from later Monday afternoon through early Wednesday
- Locally breezy winds are again possible across the southern mountains later Wednesday and Thursday, but significant fire weather concerns are not expected
- Additional mainly light precipitation is possible over more of northern California over the weekend, though the details remain uncertain at this time

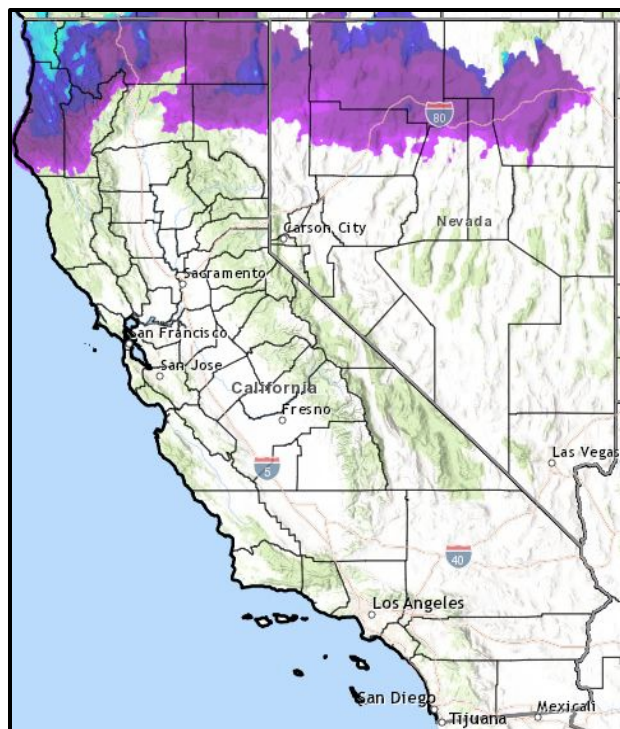

Precipitation Forecast

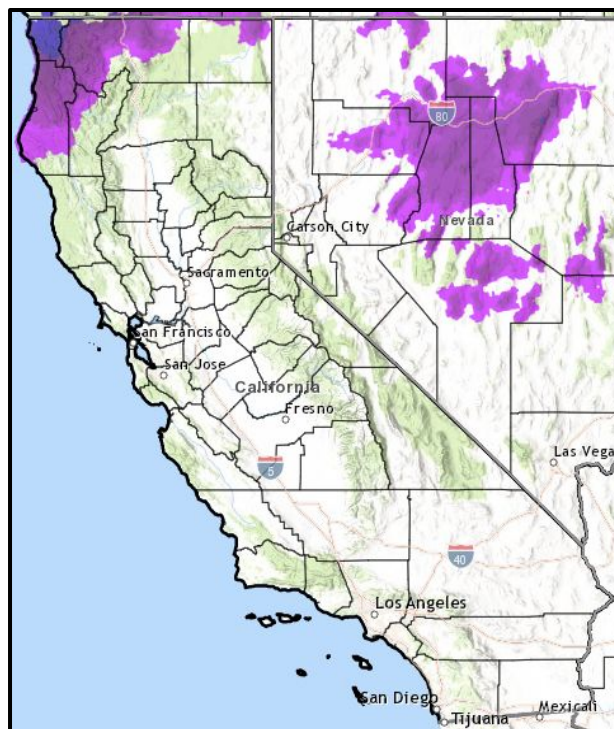

Regional Operations Center

Western Region

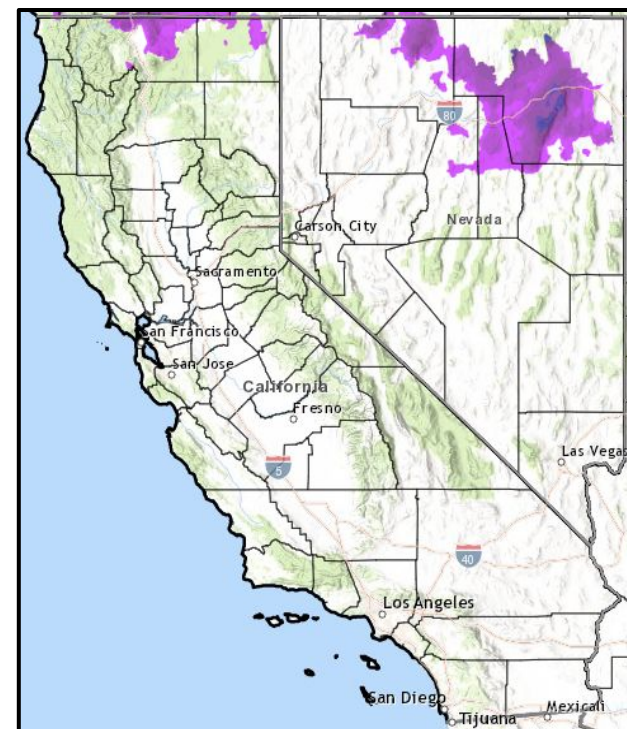

Monday, October 24

Monday

Tuesday

Wednesday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

Weather Outlook (6-14 Days)

Regional Operations Center
Western Region
Monday, October 24

6-10 Day Outlook (October 29 – November 2)

Temperatures

- Near normal temperatures are favored for most of the state, with the exception of far southern California where below normal temperatures are slightly favored

Precipitation

- Above normal precipitation is favored for the northern two-thirds of the state, with near normal precipitation favored across southern California

8-14 Day Outlook (October 31 – November 6)

Temperatures

- Below normal temperatures are favored across southern California, with near to above normal temperatures favored for much of northern California

Precipitation

- Above normal precipitation is favored for much of northern California, with near normal precipitation favored across the south

Risk Assessment Matrix

Regional Operations Center

Western Region

Monday, October 24

Impact Level Definition

- 1. Impactful weather is not expected.**
- 2. Potential threat to lives and property if no/incorrect actions are taken.**
 - Localized impacts on commerce possible.
 - Includes events that occur frequently.
- 3. Potential threat to lives and property if no/incorrect actions are taken.**
 - Impacts on commerce possible.
 - Includes events that occur a few times per year.
- 4. Actions likely needed to save lives and/or property.**
 - Significant impacts to commerce possible.
 - Includes events that occur infrequently.
- 5. Actions required to save lives and/or property.**
 - Significant and extended impacts to commerce.
 - Includes exceptionally rare events.
